Designation	Organization	From	To
QA Tester	Testrinx Software Solutions Pvt. Ltd, Noida, India	July-2020	Current

## Project Experience:

### **Project 2/Current Project: Pharmacy Website**

**Company:** Testrinx Software Solutions Pvt. Ltd.

Pharmacy is an ecommerce website providing medicines and other pharmacy products to customer's door.

This Project is based on PHP platform, where I have used Equivalence Class Partitioning technique to execute test cases.

**Testing Approach:** Manual and Automation

**Tools used:** JIRA for bug reporting and tracking, SOAP UI, JMETER, POSTMAN, MS Excel and Selenium

### **Roles and Responsibilities:**

- Perform smoke, manual, regression and data validation testing.
- Writing Test Plan and Test Cases.
- Verifying bug fixes.
- Knowledge Transition to new team members.
- Participate in all Agile/Scrum ceremonies.
- Issue Resolution/Status reporting to Product Owner/Client.

## **Project 1: Inglewood Estate**

**Company:** Testrinx Software Solutions Pvt. Ltd.

Inglewood Estate is a leading wedding venue in Northern part of Victoria state in Australia; business includes providing services like Chapel, receptions and functions.

The project is based on PHP platform where I worked as a manual tester using the boundary value analysis for positive and negative test scenarios.

**Testing Approach:** Manual

**Tools used:** JIRA for bug reporting and tracking, MS Excel.

### **Roles and Responsibilities:**

- Perform smoke, manual, regression and data validation testing.
- Writing Test Plan and Test Cases.
- Attend Scrum calls and share status.
- Issue resolution/Status reporting to onsite members.

### **Educational Qualification:**

- **M.Tech (Production Engineering)**  
Government Engineering College • Ajmer, Rajasthan
- **B.Tech (Mechanical Engineering)**  
Uttar Pradesh Technical University • Lucknow, Uttar Pradesh

### **Technical Skills:**

- Test Management tool: JIRA & Team Foundation Server (Microsoft)
- Browser: Google Chrome, Safari, IE and Firefox
- Expertise with defect life cycle and Priority and Severity of a Defect.
- Knowledge of Database testing
- Knowledge of API testing (POSTMAN)
- Basic understanding for Automation Testing (Selenium, JMETER, Python).
- Documentation: QA Artifacts (Test Cases, Test Strategy)
